

# Automotive – High Performance Computers

## Our Customer needs

- › Manage complexity
  - › Foundation architecture - central and zonal
  - › Variant management and 3rd party SW suppliers
- › Integrate and orchestrate 3rd party content
- › Connected and up to date seamlessly and securely
- › Tap into new revenue streams across the life of the vehicle

## Our Solution Examples

- › Plug & Play HPC
  - › Scalable and flexible concept for highly integrated cross-domain HPC solutions
- › Smart Cockpit HPC
  - › Ready to use solution which balances the demands between user experience, cost, and system performance

## Our Business Success

- › Producing and integrating HPCs at scale since 2019
- › First supplier to be able to integrate all vehicle domains – strategic cost savings to our customers while delivering key value out of one hand

## Our Value Proposition

- › Plug & Play
  - › Simple exchangeability and upgradeability of HPC modules pre and post SOP
  - › Innovative cooling solution with a flexible and cost-efficient cooling pad
- › Smart Cockpit
  - › Developed within 18 months
  - › Allows visual ADAS integration (360° camera) and Driver Monitoring System (DMS)

## Our Proof Points

- › First supplier worldwide to successfully bring to market a Body HPC as a fully functioning high-performance - secured server hosting software functions and services
- › Depth of expertise across the complete architecture, from road to cloud, makes Continental the partner of choice for many of our customers
