

The Missing Link

*Marcello Lucarelli, Head EMEA of Business
Segment Commercial Vehicle Fleet Services*

Next Big Challenge for CV fleets: Satisfying ever increasing compliance requirements

Safeguarding commercial fleets from existential threats

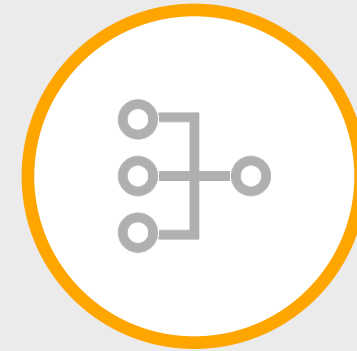

Our Mission

No commercial fleet in Europe shall ever again **experience existential threats** because of **non-compliance**, unforeseen fines and penalties.

Our Vision

A **comprehensive portfolio** of compliance solutions for the transport industry, individually adaptable for the specific needs of individual customers.

Our Role

Simplifying the **complexity of compliance**

TIS-Web becomes VDO Fleet

VDO Fleet

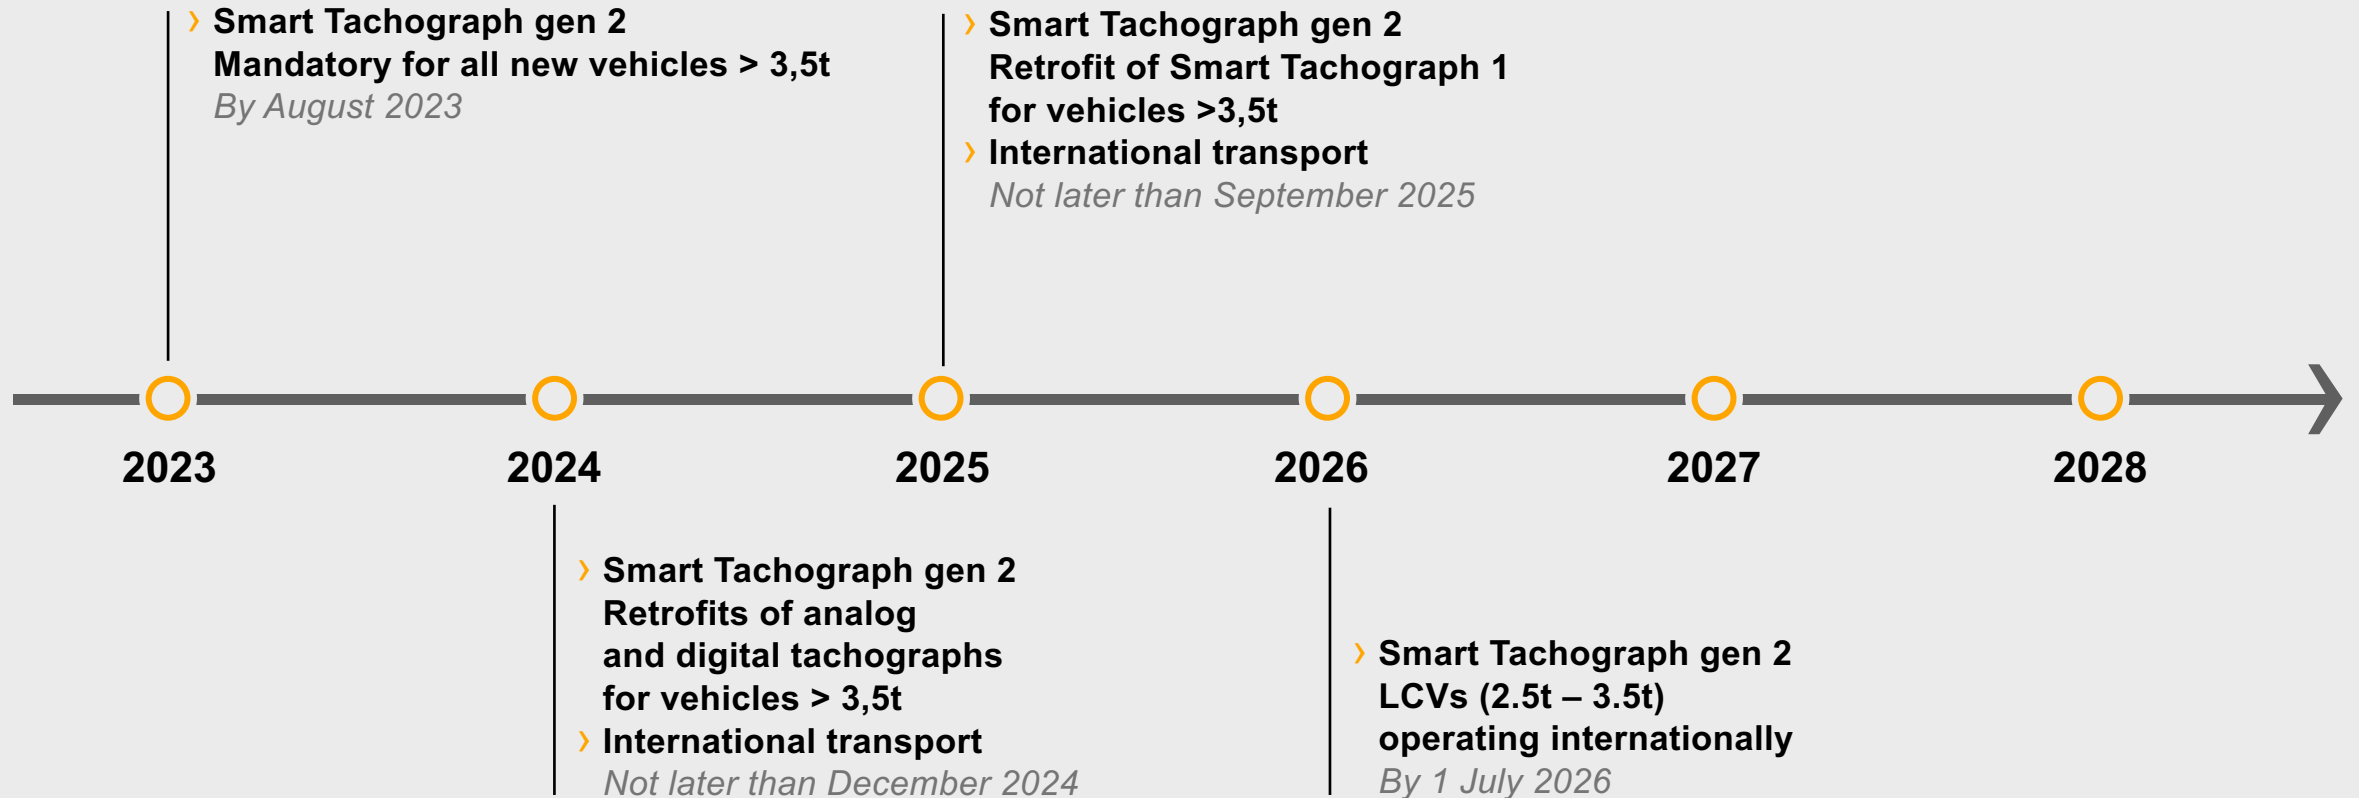

Our Approach: Hardware is just the first step.

Data from the Smart Tachograph: What does it really do?

We are ready for DTCO 4.1

We equip our network in time

*all dates are taken from EU publications and are preliminary

Data from the Smart Tachograph

Efficiency gains through tachograph data analysis

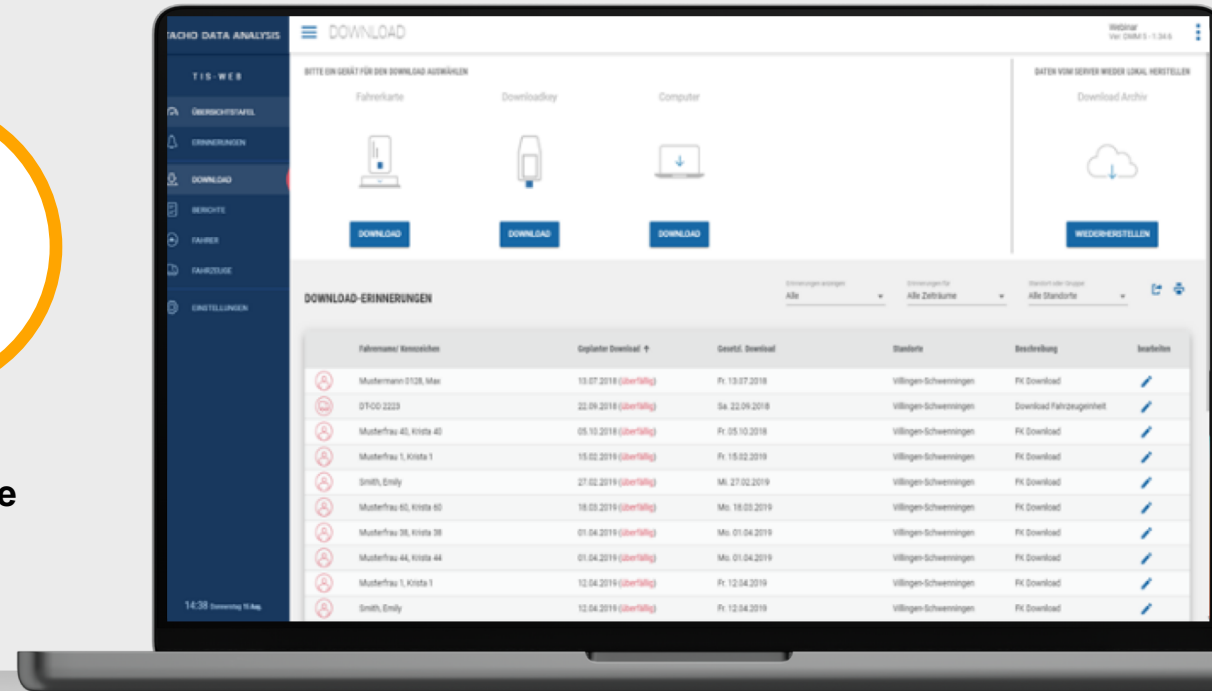

**EU
Community License**

**EU
Mobility Package I**

**Legal
Compliance**

Data from the Smart Tachograph

Data access and reduction of empty runs

Reduction of empty runs
The Smart Tachograph V2 records border crossings, loading and unloading.

Position data & border crossings

Freight exchanges to reduce empty runs

LTE
Vehicle telematics

Plug & Play
Direct access to vehicle telematics

Cloud Backend

Driver & vehicle ID

Remaining driving and rest times

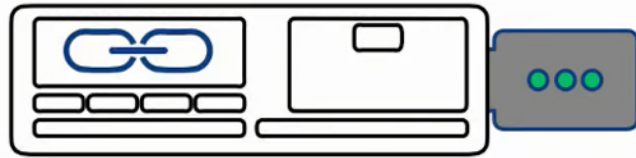

The Missing Link: VDO Link

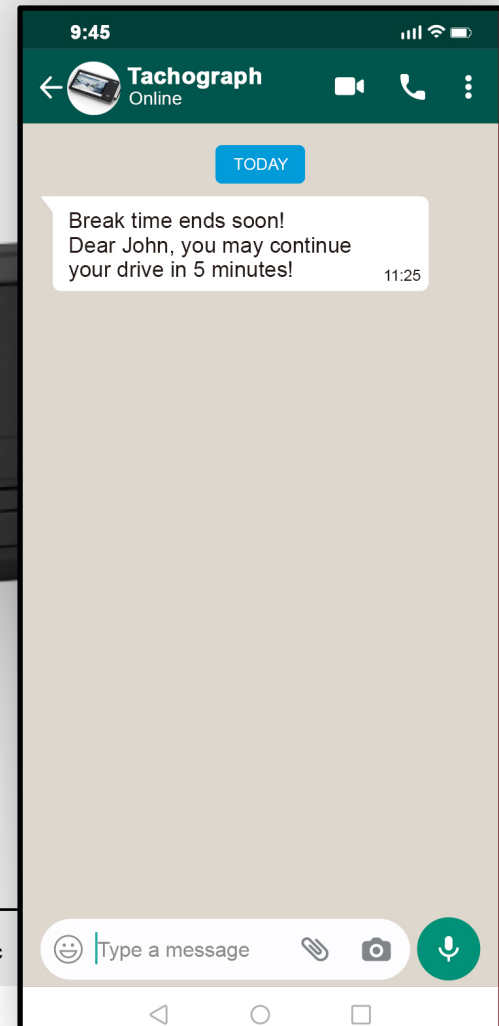

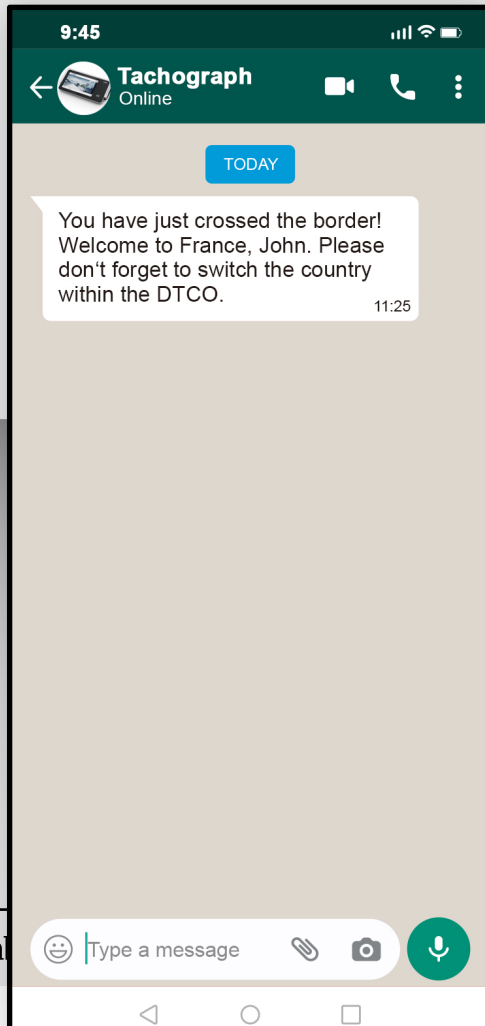

PLUG & PLAY

NO INSTALLATION
REQUIRED

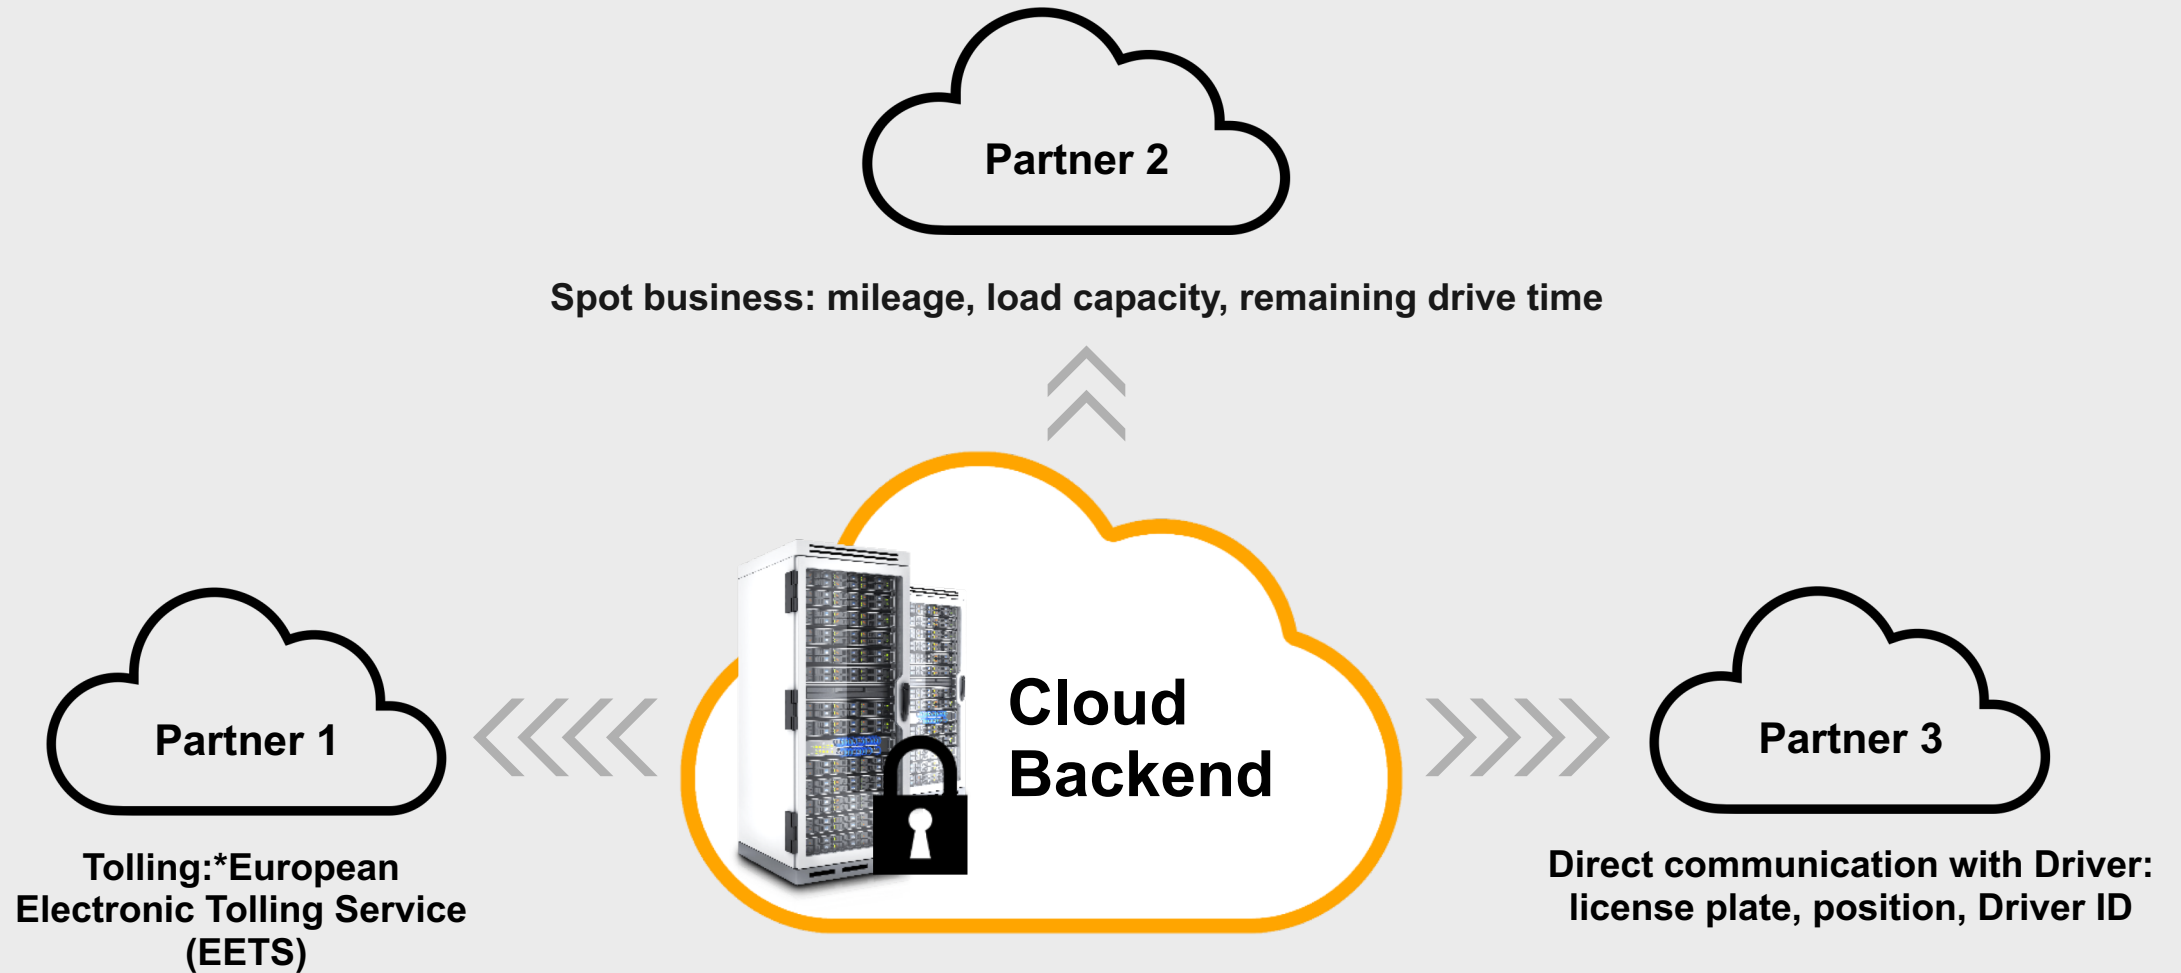

The Talking Tachograph: Improving driver compliance through communication

VDO Fleet: Future business cases

Microservice platform for partners

The Solution:
Making fleets faster, more productive,
more efficient, more compliant.

Thank you!
