

<u>Categories</u>	<u>Questions:</u>
General Project Information	Project Type
	Project Titel
	Short Project Description
	Location Details (City, State, Country)
	Organization in Charge for Project
	Website of Organization in charge / Website of project
	Are there any reports about misconduct within the projects, are any investigations running against the project owner?
	Pls explain your role in this project, are you the projector, or investor, in case of being a trader do you have exclusivity with regards to annual granted volume off take?
	Pls list the Web Page/ Certification register ID (e.g. Verra, Gold Standard, ...) where we could learn more about the project (if existing)
	How many supporters/off taker (estimate if not known) does the project currently have on annual base?
	Is it an Ex Post or Ex Ante Project?
	Info: Ex Post is meant that the Project is already existing while Ex Ante is meant that the Project is not yet existing but will exist in the future
	Can this project be officially used to claim NetZero?
Life Cycle of the Project	When did/will the project start? (DD.MM.YYYY)
	Is the Project delivering only Carbon Removal Units or also avoidance credits?
	'=>If both, what is the ratio between both? (~in%)
	Since when is the project generating Carbon Removal Units? (Year)
	For how long is the project secured, is there any end date? (Year)
	Has the Project reached the final expansion level or are further steps of expansion planed, pls describe

Project Certification	Pls Select the Label under which the Project is certified
	====> If you have selected "Other" above, pls describe
	If the project would have any additional certification pls list the name of the certification (e.g. FSC, PEFC) incl. short explanation about the scope

Carbon Removal Units	How many Carbon Removal Units does the project generate on average per Calendar Year?
	What is the Forecast of CRUs generated in this project for the next 5 years compared to the current generation of CRUs?
	In what frequency (in year) are CRU's validated?
	====> Please mention the year of the last validation report/audit
	Please provide evidence of the last conducted audit / validation report

Project Monitoring	The Carbon Removal Units you are offering in this project are already issued or will be issued?
	====> In case you have selected "Mix of Existing and Future", please list the Mix in ~%
	====> Can you guarantee in case of "Future Credits" that Continental will receive the contracted amount of credits in the agreed time period?
	====> If no guarantee, how can you make sure that Continental will receive the contracted Removal Credits in time, for the agreed price in the agreed volume?
	Are there any replacement credits if the project is running short?

Durability of Removed CO2	Is the durability of the removed CO2 in this project corresponding with the project life time?
	====> If "No", pls explain
	====> Do you know what will happen if project life time has been reached?
	In case of Afforestation/Reforestation Projects, is the project a wood plantation?
	What happens with the timber after harvesting? Is the carbon storage also after harvesting ensured?
	Please let us know if the Plantation is FSC and or PEFC certified
	Which species of trees have been chosen?
	Are these trees local species?
	In case of Afforestation/Reforestation Projects, pls explain How & Why are the tree species chosen for this project?
	Is there any rotational harvesting in the project lifetime foreseen?
	====> If yes; at what timeframe(s) will the rotational harvesting start and how many cycles are planned?
	====> What is the process of timber management?
	How will rotational harvesting take place? Selected trees / Selected Areas, ...?
	====> What is the percentage of trees which will be harvested in a year?
	====> Is the harvesting element in the Project Development Document considered with regards to credit generation?
	Is there any Natural Co-Benefit from this project arising e.g. wildlife corridor
Is the project generating credits which are stored in a buffer pool to be secured for potential CO2 reversal events?	
====> If yes, how much ~% of the generated credits are stored annually in the buffer pool	

Additionality	Pls explain the additionality of this project to the environment. Would this project still be implemented if it wouldn't generate Carbon Removal Units?
	What was the previous land use before the project started?

Social Co-Benefits	<p>Please list the certified Social Co-Benefits by referring to the individual UN Sustainable Development Goals reached by this project</p> <p>---- Info----: We consider in case of VCS projects without CCB certification the Social Co-Benefits as certified as long the respective Social Co-Benefits are listed in the Project Design Document and or in the last Monitoring/Validation Report</p>
	<p>====> Kindly list the certifying register/lable of the above listed Social Co-Benefits</p>

Marketing Material	<p>In case Continental would decide for this project, what Marketing Material about the project is in the offered price included?</p>
	<p>Suppose Continental would be interested to support this project, would we be allowed to refer officially to this project?</p>
	<p>Please provide: Project one pager</p>

CRU Section	<p>Would we have a direct contractual relation with your company or is any 3rd party involved when we would be interested to purchase CRU's out of this project?</p>
	<p>====> If 3rd party, who and what is the add. value of them?</p>
	<p>Total maximum of Carbon Removal Units offered (in metric tons CO2)</p>
	<p>What is the Vintage of the Carbon Removal Units offered (I don't know why it was chosen for 8 years of possibly vintage, but shouldn' we reduce the age?)</p>
	<p>====> Are the offered Carbon Removal Units already issued?</p>
	<p>====> If no, when is the issuing planned (month/year)</p>
	<p>====> If yes, what was the year of the issuing?</p>
	<p>Can your company perform the retirement/redemption in the register on behalf of Continental AG?</p>
	<p>-----Info: Potential Costs for retirements/redemption should be included in the price offer below----</p>
	<p>How often would you perform retirements in the register per year for the volume you have offered to us (Base: 2022 latest tatest possible retirement January 2023)</p>
	<p>In which Quarter(s) would the retirement/redemption for the offered volumes be done (Earliest January 2022 ;</p>
	<p>Will the delivery take place right after the retirement/redemption took place?</p>
	<p>====> If not, pls explain</p>
